FAST SIGNAL

COMMERCIAL WEB 10Y+
PRODUCTS SHIPPED 10+
CLIENT LAUNCHES 50+

TARGET STACK

PRIMARY

- Vue / React
- TypeScript / JavaScript
- Node.js
- REST / GraphQL APIs
- SCSS / CSS Architecture

ADDITIONAL

- Nuxt / Next.js
- WordPress / CMS
- Design Systems
- GSAP / Motion UI
- SaaS / E-commerce

DELIVERY

- Core Web Vitals
- Accessibility / QA
- Jest / Vitest / Playwright
- Docker / CI/CD
- GitHub Actions

FULL-STACK PROOF

- API Contracts / Auth
- OAuth / JWT
- PostgreSQL / MongoDB
- Prisma / ORM
- Redis / Supabase
- AWS / Cloud Handoff
- Kubernetes-aware Releases
- SSR / SSG / ISR

WHY HIRE ME

- Senior Vue / React Delivery
- Product Scope To Release
- Agency Speed, Product Care
- Backend-fluent Frontend
- Mentoring / Code Review

RECRUITER SNAPSHOT

Senior Full-Stack Web Developer focused on Vue, React, TypeScript, Node.js, and CMS/product platforms. I have shipped 50+ projects and 10+ products across German and international brands, including donation shops, e-commerce flows, SaaS/product interfaces, campaign platforms, and WordPress/CMS systems. I am strongest where teams need a developer who can turn ambiguous requirements into production-ready, accessible, performance-conscious releases without losing architecture discipline.

- Recent proof: 30+ production launches at The Cookie Labs across Vue, React, Nuxt, TypeScript, WordPress, REST APIs, donation flows, and branded campaign experiences.
- Full-stack signal: Node.js, NestJS/Fastify/Express, API contracts, OAuth/JWT, Prisma/ORM-backed workflows, PostgreSQL/MongoDB, Redis, and Supabase.
- Hiring-manager value: I reduce delivery risk by owning responsive QA, Core Web Vitals, accessibility, CI/CD handoff, code review, and pragmatic release trade-offs.

IT EXPERIENCE

THE COOKIE LABS

2021 – 2026

SENIOR VUE / REACT / TYPESCRIPT DEVELOPER

- Shipped 30+ production launches for German and international brands measured by live websites, donation shops, campaign platforms, and product experiences by building Vue, React, Nuxt, TypeScript, SCSS, WordPress, and REST API-driven interfaces.
- Raised release quality for content-heavy and transaction-oriented products measured by responsive, accessible, performance-conscious launches by applying Core Web Vitals, QA checklists, reusable Vue components, and maintainable frontend architecture.
- Connected business-critical CMS, fundraising, donation, and e-commerce flows to backend services measured by reliable client launches by integrating REST APIs, authentication touchpoints, OAuth/JWT based contracts, and payment or campaign services.
- Made production handoff easier for engineering and DevOps teams measured by smoother releases by aligning builds with AWS/Cloud hosting constraints, Kubernetes-aware release processes, CI/CD, and GitHub-based review workflows.

SELECTED LAUNCHES

- MEERSBURG THERME
- PROGENIUM
- STRABAG
- CBM
- AGA
- NXT A
- SUPERGA
- SEBAGO
- GLOBAL ECOLOGY GROUP
- MFM
- TOPOS MAGAZINE
- UN WOMEN
- ONLINE FUNDRAISING
- AVANTGARDE ACOUSTIC
- FREII
- APP.FREII
- FCBB
- + MORE PROJECTS

UPSTAFF

2021 – 2025

FULL-STACK PRODUCT DEVELOPER

- Shipped product-facing features for a talent and staffing platform measured by candidate, client, and internal user journeys by translating product requirements into reusable UI flows and maintainable frontend modules.
- Closed frontend/backend gaps in data-driven workflows measured by clearer UI states and smoother integrations by coordinating REST/GraphQL APIs, authentication flows, Prisma/ORM-backed data models, and backend validation contracts.
- Protected delivery focus in Agile/Scrum product cycles measured by predictable increments by collaborating with product owners, engineers, and stakeholders on scope, release priorities, review feedback, and iteration planning.

PRODUCT

UPSTAFF PRODUCT

DMD BINARY

2019 – 2021

FRONT-END DEVELOPER | JS / REACT / VUE DEVELOPER

- Shipped interactive features for 5 client and product platforms measured by live raffle, wallet, e-commerce, booking, and medical interfaces by building JavaScript, React, Vue, HTML, CSS, and API-integrated flows.
- Improved reliability across mixed legacy and modern stacks measured by production-ready responsive releases by refactoring fragile UI sections, normalizing API data, handling edge states, and testing cross-browser behavior.
- Connected frontend experiences to backend service boundaries measured by smoother API integrations by coordinating request formats, authentication states, REST endpoints, and maintainable component contracts.

PROJECTS

- RAFFALL
- ZENZAWALLET
- SPECIALIST HERBAL SUPPLIES
- BOOK A ROOM
- MIKAMED

BOOSTSOLUTIONS

2018 – 2019

FRONT-END DEVELOPER | WORDPRESS DEVELOPER

- Delivered client-facing WordPress and frontend features for agency projects as measured by production page launches by building responsive layouts, CMS-editable content modules, SCSS components, and clean handoff-ready templates.
- Reduced delivery friction from implementation to production updates as measured by faster QA turnaround by fixing cross-browser issues, aligning CMS behavior with client needs, and supporting release updates.

PROJECTS

EVOLVE

JETBRAIN

2017 – 2018

FRONT-END DEVELOPER | WORDPRESS DEVELOPER

- Built and maintained 10+ WordPress websites, marketing pages, and business sites as measured by delivered corporate, education, legal, and commodity-sector projects by implementing custom templates, content modules, and responsive frontend interactions.
- Improved maintainability for client-managed content platforms as measured by easier content updates by structuring reusable WordPress components, CSS patterns, and admin-friendly page sections.

PROJECTS

- KERNEL
- NOTA GROUP
- AMC
- IT-SOLUTIONS
- WAVE OF ENGLISH
- AVERE COMMODITIES
- ERGOMOTION
- LCF LAW GROUP
- CASE UKRAINE
- CASE UKRAINE PROJECT

FLEEK MARKETING

2016 – 2017

FRONT-END DEVELOPER | WORDPRESS DEVELOPER

- Delivered WordPress websites and frontend builds for 6 UK client projects as measured by launched hospitality, healthcare, science, bridal, and veterinary websites by creating responsive page templates, CMS sections, and production-ready UI components.
- Raised release quality for agency-managed client websites as measured by fewer layout and browser issues by testing responsive breakpoints, fixing cross-browser defects, and preparing content sections for client editing.

PROJECTS

- THE SUN PAVILION
- VENUS BRIDAL
- WEETWOOD HALL
- THE SLEEP COUNCIL
- ADVANCING SCIENCE FOR LIFE
- WYLIE VETS

EARLIER ENGINEERING CAREER

NKMZ

2011 – 2017

WORKSHOP SUPERVISOR | METAL STRUCTURES MANUFACTURING

- Managed production work on a metal structures manufacturing site at a large machine-building plant.
- Coordinated people, process discipline, quality expectations, and delivery schedules in a high-responsibility industrial environment.

EDUCATION

Welding Engineer

2006 – 2011

Donbass State Academy – Faculty of Mechanical Engineering

Enterprise Economics Specialist

2008 – 2012

Donbass State Academy – Faculty of Economics

Self-directed Software Engineering Education

2012 – Present

Books, documentation, online courses, YouTube, and production practice
